

BEST PRACTICE-I

1. Title of the Practice

Online classes

2. Objectives of the Practice

The college focused upon the execution of online classes during the time of pandemic. The main objectives of the above activity are to maintain academic rhythm and to facilitate the students with proper academic inputs.

3. The Context

The main challenge for the above activity was to involve every student in the live online classes. The students of rural areas were partially able to join the above practice.

4. The Practice

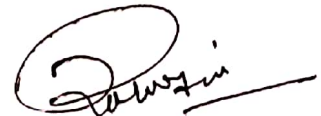

The conduction of online classes was the need of time in order to maintain the academic structure as desired by higher education.

5. Evidence of Success

Students and faculty members were significantly involved to adopt and execute the online classes along with the development of e-content in the form of video lectures for the requisite papers.

6. Problems Encountered and Resources Required

Besides the sound network system, the above activity also faced the problem of participation of every student. Being self finance institution the marginal availability of resources was also the point of concern.

BEST PRACTICE-II

1. Title of the Practice

Conduction of online examinations and assessments

2. Objectives of the Practice

The assessments of students on the basis of the online course completion were the prime objective of the college. Along with it the timely completion of internal exams were also focused.

3. The Context

The main challenge for the above activity was to design a system and mechanism to make sure about the conduction of exam for every student.

4. The Practice

The adoption of online examination and evaluation system was the required element to maintain the regulation of autonomous protocol.

5. Evidence of Success

With the help of open source platform the CIA exams were successfully conducted and the online evaluation was also performed by the faculty members.

6. Problems Encountered and Resources Required

Being a self financed institution the major constrain was to develop self platform to strengthen the online examination system.
